

# RODIAS

YOUR DIGITAL TRANSFORMATION SPECIALIST

## SPECIALIST FOR ASSET MANAGEMENT & DIGITAL TRANSFORMATION

As a specialist in the design, implementation and optimization of maintenance solutions and plant management, we advise process driven industries such as power plants, automotive, transportation, public transport, paper, chemicals, oil & gas and plant construction.

With 40 years of experience, we are the market leader for EAM solutions in the nuclear industry in German speaking countries with innovative solutions for dismantling.

In the DACH region, RODIAS is one of the longest standing and most experienced business partners of IBM and Infor for Enterprise Asset Management Systems (EAM).

RODIAS is a consulting company for maintenance processes, change management and the digitization of value chains in asset-intensive industries. We support the introduction of sensor technology, condition-based and predictive maintenance as well as AI-supported strategic platforms. We support companies in a sustainable Maintenance 4.0.
