

SPECIALIST FOR INDUSTRIAL INSTALLATION

WIR offers professional solutions as a one-stop-shop. Flexible, reliable and with more than 20 years of experience in the market. Based upon our specialised and dynamic team, WIR works in a quality-conscious and cost-optimised manner.

Industrial installation

- Relocation of production plants
- Disassembly and reassembly of individual machines, e.g. machining centres, presses, injection moulding machines, curing systems, assembly lines, heavy duty shelving and rack systems
- Relocation of workshop/office installations
- Internal and external, e.g. Germany, Europe, USA, Mexico, Brazil, India, China

Cleaning

- Machines and plants, transport/conveying facilities and links, including media and supply lines
- Lubricant and filter cleaning as well as their replacement
- Use of ultrasonic cleaning device for e-filters
- Supply and exhaust air systems (filter cleaning and replacement)
- Manufacturing facility cleaning

Powerful team

- Project managers
- Fitters, truck drivers
- Senior electricians/electricians/electronic technicians
- Cleaning and maintenance team

Certified

- DIN EN ISO 9001

As part of ROBUR, WIR offers even more: almost 3,000 employees globally work in the wind, water, energy, industrial and process industries. As expert partners for our customers we create holistic solutions from planning and implementation, to maintenance and operation, to the relocation and decommissioning driving the challenges of digital transformation and ecological change.
