

ROBUR announces SSC BALTIC WIND acquisition

Following the SSC Group and ROBUR's announcement at WIND ENERGY Hamburg 2018 on their plans to merge at some point in the future, ROBUR now finalized the acquisition of SSC BALTIC WIND on 07/02/2019. The remaining SSC companies and ROBUR have also agreed to further cooperate, although any plans for closer collaboration have currently been postponed.

The new ROBUR company will begin operating as ROBUR BALTIC in the future, but it will retain the former SSC BALTIC WIND executive board.

About ROBUR Industry Service Group GmbH (ROBUR):

Founded in 2015 as a response to the changing challenges of high-quality industrial services, ROBUR is now one of the top 10 industrial service providers in Germany, with 17 partner companies and turnover of approx. EUR 150 million in 2018. Both the financing and the leadership of the group are characterised by partnership and entrepreneurialism. Our member companies benefit from the size and internationality of the group and can leverage sales, capacity utilisation and management synergies.

Almost 2,000 employees work in the wind, water, energy, industrial and process industries. As expert partners for our customers, we create holistic solutions, from planning and implementation, to operation and maintenance, to the relocation and decommissioning.
